Our ECO Councillors watched a film today presented by Joe Smith about paper towels and how many are wasted in America each year. We talked about the paper towels that are used in the UK and all over the world and thought how we could influence people to save paper.

The children agreed they would take part in an assembly and present this idea to the staff and children of Cromwell Academy in the hope they can make a difference.

Children went on to complete their posters about composting.

**Next meeting: Tuesday 22 May 2018.**
